

UNIVERSITÉ  
DE LORRAINE

**PhD or Post-Doctoral Research Scientist  
in Epidemiology/Public Health and/or Infectious Diseases**

**2-year full time position**

**Interdisciplinary ANTIBIOVAC Team «Antimicrobial stewardship and Vaccination practices»  
Lorraine University, EA 4360 APEMAC (Public Health research unit), Nancy (France)**

We would like to recruit a PhD or post-doctoral research scientist to join the ANTIBIOVAC team, <http://apemac.univ-lorraine.fr/node/536>. The research in our interdisciplinary team (15 senior researchers, mixing healthcare professionals and social scientists) focuses on antimicrobial stewardship and vaccination practices. The team has many national and international collaborations, with more than 30 current research projects and more than 30 publications per year.

The post involves research on an **interventional controlled study conducted in our region, aiming at assessing the impact on antibiotic use of a bundled intervention (public commitment + practical tools) targeting general practitioners.**

Applicants should have:

- for PhD students: a Master in epidemiology/public health/biostatistics
- for a Post-Doctoral fellowship: a PhD in epidemiology/public health/biostatistics

Applicants should have experience in writing scientific manuscripts and should be familiar with data management and statistical methods. Previous experience in the field of infectious diseases is desirable. The PhD student or Post-Doctoral scientist will work collaboratively with other scientists within the ANTIBIOVAC team. S/he will be in charge of project management, supervision of data management and statistical analyses, interpretation of results and the writing of journal articles for publication of research findings from this work, under the supervision of senior researchers.

This position will be open in September/October 2018 and will be based in Nancy (France), under the supervision of Prof. Céline Pulcini (infectious diseases specialist) and Prof. Nathalie Thilly (public health specialist and epidemiologist). The successful applicant will join a dynamic team of researchers and PhD students.

The applicant should be fluent in French and should have a good level in English. S/he should have a driving license (valid in France) and a personal car.

Monthly gross salary: 1758 euros/month for a PhD student and 2000-2400 euros/month for a Post-Doctoral scientist (depending on the level of experience).

**In order to apply, please send a cover letter and CV before the end of July 2018 to:**

Professor Céline PULCINI and Professor Nathalie THILLY
